Aspiring AI Engineer passionate about building intelligent systems with LLMs and real-world user interaction.

EDUCATION

Bachelor of Science, Computer Science (Honors)

Expected May 2026

William Paterson University

Wayne, NJ, USA

- **Certifications:** AWS Certified AI Practitioner, Intermediate GenAI (Google), Intro to iOS Development(CodePath)
- **Awards & Honors:** Dean's list (All semesters), Presidential Scholarship, Honors College
- **Activities:** CS Club Treasurer, Hackathons(Hack Princeton, Hack Harvard)
- **Coursework:** Data Structures and Algorithms, Software Engineering, Operating Systems, OOP, Computer Programming, Database Management Systems, Web Development, Cloud Computing, Statistics, Calculus I & II

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, Swift, EJS, HTML/CSS

Frameworks & Tools: FastAPI, Node.js, PostgreSQL, LangChain, Supabase, Firebase, Docker

AI/ML: NLP, Prompt Engineering, Gen AI, LLM Integration & Automation, Vector Databases, RAG, Chatbot Development, OpenAI API

Platforms: GCP, GitHub, Xcode **OS:** Windows, macOS, Linux

PROFESSIONAL EXPERIENCE

AI Founding Engineer Intern

Oct 2024 – Present

Humanity AI

Upper Montclair, NJ

- Developed and supported multiple AI-driven products, including a conversational chatbot using Retrieval-Augmented Generation (RAG) with dynamic LLM routing based on query intent.
- Integrated and evaluated multiple AI APIs, improving response accuracy by **35%**.
- Built and optimized backend pipelines using PostgreSQL, Supabase, and GCP for document ingestion, storage, and retrieval.
- Improved system performance and user experience through iterative pipeline and UX optimizations, increasing engagement by **40%**.

Software Engineer Intern

Mar 2024 – May 2024

William Paterson University

Wayne, NJ

- Built a responsive club portal, increasing engagement by **50%** and automating **70%** of previously manual workflows.
- Implemented real-time backend logic, improving reliability and performance for 100+ users.

TECHNICAL PROJECTS

Scanara AI | [React](#), [Node.js](#), [Firebase](#), [Google Gemini API](#), [VS Code Extension](#), [npm](#)

Nov 2025

- Developed a multi-platform tool that audits applications for HIPAA compliance and generates detailed AI-powered compliance reports.
- Implemented secure authentication, real-time syncing, and weighted scoring, improving audit reliability by **40%**.

AskAbhash (Digital Twin) | [Node.js](#), [Express.js](#), [OpenAI API](#), [Firebase](#), [Python](#), [scikit-learn](#)

Apr 2025 – Present

- Built an AI-powered “Digital Twin” chatbot with Express.js and OpenAI to answer recruiter questions in real time from portfolio and resume data.
- Implemented a RAG pipeline using OpenAI embeddings and Firebase Firestore for vector search and semantic retrieval.
- Used Python/scikit-learn (DBSCAN) to cluster user queries for behavioral analytics and dynamic FAQ generation via REST APIs.

LetsCric | [HTML](#), [CSS](#), [JavaScript](#)

Nov 2024

- Built a real-time cricket dashboard using the Cricbuzz API to deliver live scores, match summaries, and news.
- Optimized data flow and reduced load time, achieving a **30%** performance improvement under high traffic.
